Introduction

I am a passionate and thorough individual, with a Bachelor of Science degree in Computer Science and Information Technology from University of KwaZulu-Natal. Through my career with F-Secure Corporation and Denel SOC Limited, I have gained immense experience in the field of information and cyber security, from an offensive and defensive perspective alike. I have a keen interest in cloud computing, networking, and web application development and security. I am a quick learner, love solving problems, and mentoring others within a team. I am experienced in penetration testing, databases, software development and project management. I have a foundation in Java, PHP, C# and Visual Basic, with Linux being my primary operating system. I am also knowledgeable in networking, Windows, C++, Python and Bash, with an understanding of Microsoft Active Directory and security systems. My goal is to contribute to making the digital world better, while doing so innovatively and challenging myself.

Personal Information

Date of Birth:	13 April 1995
Place of Birth:	Victoria Hospital, Tongaat, KwaZulu-Natal
Citizenship:	South African
Race:	Indian
Gender:	Female
Marital Status:	Single
Driver's License:	Code B

Education

Skills

- Penetration Testing:
  - Experienced in using Kali Linux and its tools
  - Experienced in penetration testing of web applications and external networks
  - Experienced in configuration reviews of databases and hosts
  - Knowledgeable in penetration testing of internal networks and cloud-based technologies
  - Knowledgeable in the cyber security killchain
  - Knowledgeable of Security Incident and Event Management (SIEM) systems
- Interpersonal Skills:
  - Experienced in engaging with and establishing relationships with clients
  - Experienced in engaging with colleagues in different teams
- Technical Writing:
  - Experienced in writing and quality assurance of technical documents
- Leadership:
  - Mentoring junior consultants
  - Team led major projects during university
- Computer Networking and Principles, including but not limited to:
  - Microsoft Active Directory
  - Linux
  - Windows
  - Privilege Escalation
  - Internet Protocols and Services (TCP, UDP)
- Programming Languages, including:
  - Java
  - C#.Net
  - C++
  - Assembly
  - Visual Basic
  - HTML
  - Python
  - Bash
- Languages:
  - Fluent in English
  - Intermediate in Hindi and Afrikaans
  - Beginner in isiZulu
