Professional Summary

Proficient and thorough Cyber Security engineer with 3+ years' experience and a deep understanding of information technology. I am keen to join an innovative, vibrant organization that will recognize my proficiency. I seek to establish myself in a more dynamic environment where my extensive expertise in Linux Red Hat, Cyber Security, Server administration, and cloud infrastructure will be fully utilized.

Work Experience

September 2018 – present

Puleng Technologies (PTY) Ltd – Consulting @ Rand Merchant Bank

Privilege Access Management (PAM)

- Cyber security engineer delivering PAM solutions that offers visibility and control over accounts that have privileged access

- Power Broker for Windows (PBW) - Server privilege management, control risk and achieve compliance
- Vulnerability and Risk management
- Asset discovery and onboarding
- Windows Auditing
- Power Broker for Unix and Linux (PBUL)
- Third party integration (ServiceNow)
- Retina CS -Enterprise Vulnerability Management and Threat analytics
- Network and Host-based security scanning
- Cloud-based perimeter scanning
- Dynamic Application-web scanning, Risk management (Mitigation and Remediation)
- Analytics and Reporting (SSRS)
- Public Key Infrastructure (PKI), encryption and cybersecurity that protects communication between server and client. Uses public and private keys.
- SSH Key management
- API Integration

January 2017 – September 2018

System Analyst Graduate

Khulisa Academy, DELL EMC

- Managing and monitoring all installed systems and infrastructure
- Installing, configuring, testing and maintaining operating systems
- Application testing for potential bottlenecks, identify possible solutions
- Maintaining security, backup and redundancy strategies
- Participating in the design of information and operational support systems
- Liaise with vendors and other IT personnel for problem resolution

Education

UNIVERSITY OF LIMPOPO

2014-2016 > BSc Computer Science

- Computational Mathematics and Modelling
- Data organization and Artificial Intelligence
- Computer Networks,
- Database Systems (SQL)
- Statistics
- Programming in C++, JAVA and HTML

2017-2018 > KHULISA ACADEMY NQF 5 |Torque IT

- Red hat Certified System Administrator RHCSA
- Linux engineering and Administration
- CompTIA Cyber Security (CySA+)
- CompTia A+
- CompTia Cloud +
- Windows Server Infrastructure
- MS SQL SERVER 2014
- MS Business Intelligence

Certificates

- RHCSA (Red Hat Certified System Administrator)
- LPIC1 (Linux Admin 1)
- LPIC 2 (Engineering 2)
- MCSA (Windows Server 2012)
- MSCE (Cloud Platform and Infrastructure)
- CompTia Cyber Security (CySA+)
- CompTia A+
